

Mask Norns Type Civet, Geats Slot O for Creatures 3 and Docking Station
---- by **Jewels Parker** / "Scientist of the Mask" ----

----- **MaskNornCivet.agents** by **Creatures Unlimited** -----

Do not distribute or publish this Norn-Pack (MaskNornCivet.zip) or any part of it in any form (web page, CD-ROM etc.) unless you have written permission from the authors. To ask please use contact info below.

Files included in MaskNornCivet.zip

MaskNornCivet.agents: agent file

MaskNornCivet-de.rtf: German info/rtf

MaskNornCivet-en.rtf: English info/rtf

MaskNornCivet-fr.rtf: French info/rtf

MaskNornCivet-de.pdf: German info/pdf

MaskNornCivet-en.pdf: English info/pdf

MaskNornCivet-fr.pdf: French info/pdf

MaskNornCivet-de.txt: German info/ASCII

MaskNornCivet-en.txt: English info/ASCII

MaskNornCivet-fr.txt: French info/ASCII

Installation

To use MaskNornCivet.agents with Creatures 3:

Make sure that Update 2 for Creatures 3 (<http://support.creaturelabs.com/>) is installed.

For Creatures 3 standalone (Docking Station not installed):

Put MaskNornCivet.agents into Creatures 3\My Agents folder.

For Docking Station standalone (Creatures 3 not installed):

Put MaskNornCivet.agents into Docking Station\My Agents folder.

For Docking Station, Capillata only or docked with Creatures 3 (Creatures 3 installed):

Put MaskNornCivet.agents into Creatures 3\My Agents folder, if you like to use the Mask Civets in Creatures 3, too, otherwise put it into Docking Station\My Agents folder.

How it works

All files needed to play with the Mask Civets will be placed in the right folders as soon as the breed "Jewels Mask Norn (Civet)" is selected on the egglayer(Creatures 3) or Muco (Docking Station) and an egg is going to be created.

Depending on your configuration of Creatures 3 and/or Docking Station all info files will be placed
either in Creatures 3\Genetics and Creatures 3\My Creatures
or in Docking Station\Genetics and Docking Station\My Creatures.

Description

Files added by MaskNornCivet.agents:

- the original **Mask Norn Civet sprite set created by Jewels Parker**, now using Geats slot O instead of Norn slot O. We decided to rewrite the sprites to keep Norn slots free for existing or upcoming breeds made by

Creature Labs.

- **attachment files** (BodyData)
- **masknorncivet.gen** which is the full norn.expressive.civet.47 genome by Creature Labs except for the appearance genes which have been edited (genus: Shee, slot: O).

(C)opyright

We want to emphasize that

Jewels Parker/Scientist of the Mask

(<http://jewelscr3.tripod.com/>)

(even if deceased) still owns the copyright on her

Mask Norns (Mask Bruins, Mask Bengals, Mask Civets),
Mask Grendels,
Mask Ettins,
Halloween Norns,
Multi Malay Norns and
Pink Alba Norns.

Before she passed away, Jewels gave explicit permission to

Creatures France (<http://creaturesfrance.free.fr/>) - French Version, and

Creatures Unlimited (<http://connect.to/cu/>) - German Version

to host her Creatures:

"Due to a growing number of people asking to host my norns; please don't ask:

There are only two sites that I have allowed to host any of my creations or conversions: They are the German Site and the French Site."

(Jewels on her site <http://jewelscr3.tripod.com/>)

You don't need to ask for permission, if you want to pass this agent on to your friends (but please don't change any part of it). But you have to ask for permission from the authors, if you want to place this agent or any other agents made by **Creatures Unlimited (CU)** on your own web site.

Contact

If you have any questions concerning Jewels' Creatures or MaskNornCivet.agents, feel free to contact us. Also, if you notice any problems with MaskNornCivet.agents, please let us know.

Credits

We say thank you to all who helped us to make this agent file:

Mark Ashton/Creature Labs (<http://www.creaturelabs.com/>)

Nimue/Creatures of Avalon (<http://www.creatures-of-avalon.de/>)
Simonia/Simonias Creatures (<http://www.simonias-creatures.de/>)
Tokarion/Tok's Creatures (<http://members.tripod.de/tokarion/creatures/>)
pasto/Creatures France (<http://creaturesfrance.free.fr/>) - for translating this info text from English into French

Special thanks to **emmel**/Outer Albia (<http://go.to/outeralbia/>): Without the advice we got from "Outer Albia Support" this agent probably never would have been completed.

*For several reasons, Jewels was very addicted to her beloved creatures.
When she asked us to host them on our German Creatures site giving them a good home we proudly
did.*

In memory of Jewels we'll continue doing so.

Have fun with Jewels' Mask Civet Norns. :-)
